	1.In debt, current value amount is not showing. Result return value esp for weighted average shows Na														
		Amount to show based on time and interest calculation .													
		Or the initial amount to be shown. As in other products in debt.													

2.Return calculatio n shown in decimals. Clients may not understa nd it. Please multiply the decimal by 100. Please show upto 3 decimals only(for example 9.023)															
3.Current dates are not changing regularly.															
4.Physica l assets (real estate, precious metals and Auto put toget her)calcu lations shown by the side. Again weighted average of these assets' total only															

5. Same way for equity (direct equity, foreign equity, equity oriented mutual fund and Hybrid mutual fund) calculations. Shown by the side -- weighted average of all of them															
6. All assets total and summary of assets shown below their total should be the same.															
7. Color for each asset can be different. As used in Excel in Output															

	8.Asset heads to be in separate column to distinguish each other. Looks cluttered now
